Ebola Epidemic in West Africa

Dear Colleagues,

I write to you at this time about the Ebola epidemic in West Africa, which is both a very topical problem and a real emergency.

As the Liga Medicorum Homoeopathica Internationalis (LMHI), we have to date attempted to create a working group to identify the genus epidemicus and possible prophylactic remedies. We have been able to do some constructive work, but it is now time move into action and to request the co-operation of the international homoeopathic community towards addressing the problem. Some German colleagues are in contact with members of the government of Liberia and the possibility exists that in a few days a door to working in that country may be opened.

I therefore send this letter as a means of requesting whether, amongst the many thousands of colleagues around the world, there are any who are expert and experienced in the management of serious epidemic situations, such as this Ebola epidemic, who are happy to join us. Our goal is, minimally, to form a group to study the disease, and also a group of volunteers who are ready to travel to countries with Ebola problems who may request our help. This may not happen, but we have to be ready. Furthermore, since homeopathy has enjoyed fame for its successes in the worst epidemics of the last two centuries, we have to be ready to make our contribution to the unfortunate populations of those African countries experiencing the Ebola epidemic, if so requested.

As the Liga Medicorum Homoeopathica Internationalis we avail our world structure and are open to receiving offers of collaboration. The member of the Board whom I have tasked to work on this issue is Dr Altunay Soylemez, our Treasurer. She will be responsible for the project and will be in close contact with our German colleagues who have offered their collaboration.

In view of the urgency of the situation, I believe that your response to this request should be very prompt. May I earnestly request that you submit your response by Wednesday 27/08 or Thursday 28/08/. **Please respond to altunaysoylemez@yahoo.de.**

Thank you most sincerely for your help. Let us see what good work can be done when we all work together!

Kind regards

Dr. Renzo Galassi

President LMHI
